

# AN EYE ON THE WORLD ECONOMY

A CONFERENCE FOR UNIVERSITY  
AND COLLEGE FACULTY

FEDERAL RESERVE BANK  
OF DALLAS

NOVEMBER 19, 2003

# AN EYE ON THE WORLD ECONOMY

A CONFERENCE FOR UNIVERSITY  
AND COLLEGE FACULTY

 **Why do some nations have expanding economies while others struggle?**

“An Eye on the World Economy” will examine this and other international economic issues from a policy perspective.

Among the speakers will be special guest **William Easterly**, New York University economics professor and author of *The Elusive Quest for Growth: Economists’ Adventures and Misadventures in the Tropics*. In his book, Easterly looks at the economic policies that separate wealthy nations from poor ones.

**Robert D. McTeer, Jr.**, president and CEO of the Dallas Fed, will examine the current state of the U.S. economy. Additional speakers will discuss the following questions:

-  Why is Ireland such an economic success while Latin America seems to be languishing?
-  What are the new developments in the Asian economies?
-  How are trade and immigration issues affecting world economies?
-  How much can the U.S. economy expect to rally and why?
-  Does the rest of the world really affect U.S. growth?
-  What does outsourcing signify for the U.S. economy?

Presentations are designed to benefit faculty members in various academic areas, including economics, finance, business, public policy, political science and education.
